- › Made in Germany
- › Fan assisted for quick heating
- › Modern curved design
- › Variable temperature selection between 6-30°Celsius
- › Quiet cross flow fan

CK 20S PICTURED

Fast and efficient room heating with the CK fan assisted room heater from Stiebel Eltron.

The CK series of fan assisted room heaters from Stiebel Eltron provide instant warmth through fan assisted heating. The CK has a quiet cross flow fan that quickly heats rooms up to a size of 20m². Incorporating a sensitive thermostat that can be set between 6-30°Celsius, the CK will switch off as soon as the desired room temperature is reached. It will then heat intermittently to maintain the desired temperature. The CKZ comes with a 24 hour quartz time switch, allowing you to set the heating times in advance.

Designed to be wall mounted (wall bracket included) the modern curved appearance is unobtrusive and can be installed almost anywhere. Designed to Stiebel Eltron's high quality standards the CK heater is made in Germany and includes a thermal safety cut out to prevent overheating. Providing warmth efficiently the CK heater is the perfect compact sized wall mounted heater for smaller rooms when heat is required quickly.

What size room can be heated by the CK fan assisted room heater?

The CK room heater can heat a room size of up to 20m². When deciding on a room heater you should consider the room in which the heater is being installed. The height of the roof and whether the room is insulated will impact what size heater to select. As a general guide for sizing a heater to a room: 1kW output heats up to 10m². Here is a sizing example to assist you in selecting the correct heater size.

CKZ 20S = 2kW (2000watts) which can heat up to 20 square metres*
E.g. Room size: 5.0m (length) X 4.0m (width) = 20.00m²

Technical Data	Fan Assisted Room Heater	
Model number	CKZ 20S	CK 20S
Power Consumption	2kW	2kW
Connectable Load	230-240 V	
Temperature adjustment	≈6-30°C	
IP Rating	IP13 B	
Height	460 mm	460 mm
Width	335 mm	335 mm
Depth	123 mm	123 mm
Weight	≈4.4 kg	≈4.4 kg
Colour	White	
24 Hour Time Switch	Yes	No
Heats up to (m ²)*	20	20

*Based on room with insulation and a ceiling height of 2.7 metres

CKZ model with 24 hour quartz time switch and easy to use rotary dial for temperature selection
